Transparent Speaker

Available in black and white

Our original Transparent Speaker produces a sound that is both powerful and well-balanced, allowing it to fill almost any room with high-quality music. Unapologetically stripped back to include only the essential, our wall-mountable speaker is surrounded with tempered glass panels on each side that allow you to view the inner components at work. A statement of timeless, modular electronics that blends into any environment.

Acoustic Sculpture

Available in black and white

Unleash the beauty of sound with our special edition - Acoustic Sculpture. Inspired by the organic shapes and curves of the human ear and nature's own acoustic horn designs, such as seashells, this piece of art is not only visually striking but also acoustically superior. The sculptural, organic geometry amplifies the sound from the speaker elements, creating a truly immersive listening experience. Discover the art of audio with this one-of-a-kind creation.
